

U.S. Application No.: 09/830,732  
AMENDMENT B

Attorney Docket: 2368.119

IN THE CLAIMS

---

9 Claims 1-9 (Canceled)

10. (Previously presented) A case-safe system comprising:

a stationary housing adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,

a case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked,

wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system.

11. (Previously presented) A case-safe system according to Claim 10, wherein the security locking system is a lock with key, a combination lock, a magnetic card lock or a electronic lock.

12. (Previously presented) A case-safe system (10) according to Claim 10, wherein the first locking boreholes are provided with reinforcements.

13. (Currently amended) A case-safe system comprising:

a stationary housing adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,

a case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked,

C/ wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system,

~~A case-safe system (10) according to Claim 10,~~ wherein the housing include second locking boreholes for a locking rod or bar.

14. (Previously presented) A case-safe system according to Claim 13, wherein the locking rod or bar can be secured with a lock.

15. (Previously presented) A case-safe system comprising:

a stationary housing adapted to be secured in closets, on walls or in vehicles, in boats, in air planes and in bank safes,

a case adapted for being received in the housing, wherein the case can be inserted and barricaded or locked,

wherein the housing includes first locking boreholes for locking and for receiving locking bolts associated with the case, and that the case is provided with its own independent security locking system;

wherein the housing includes a concealment covering and/or a shield.

16. (Previously presented) A case-safe system according to Claim 10, wherein the housing and/or the case is comprised of a fire resistant material.

U.S. Application No.: 09/830,732  
AMENDMENT B

Attorney Docket: 2368.119

17. (Previously presented) A case-safe system according to Claim 10, wherein the housing and/or the case is comprised of steel, cast aluminum or extruded metal parts.

18. (Previously presented) A case-safe system (10) according to Claim 10, wherein the stationary housing comprises multiple housings connectable with each other.
